This 2 day training session is designed for general and special education teachers. It will provide participants with the necessary information and tools to implement CHAMPS or ACHIEVE in their classroom. CHAMPS strategies are research-based practices that are highly effective and easy to implement. This training will assist classroom teachers in designing proactive & positive classroom management plans that explicitly teach students how to behave responsibly. The training is designed to help participants evaluate and (as necessary) develop or revise their current classroom management plan.
